Galaxy TabPro S - What is Samsung Recovery Solution on my Galaxy TabPro S?

Back up your data and settings, and restore your device to a previously backed up point or to the factory default.

To use this app, you must sign in to the device with an administrator account, or enter the administrator's password.

When you restore your device, it will erase the data or apps saved after the selected backup point. Ensure you back up important data regularly.

Samsung Backup Solution

External Storage Device must be connected.

Back up important data to an external storage device regularly to prevent restore.

1. Connect an external storage device.

2. On the taskbar, select **Earl Start.**

11. When the backup complete window appears, select **OK**.

Restoring the System

Restoring to Factory Default

Restore the device to its factory default settings. Before performing a factory data reset, ensure you back up all important data stored on the device.

• On the taskbar, select **Start > All apps > Samsung > Samsung Recovery > Factory image > Recover > Recover > OK**.

Restoring to a Backup Point

Select a backup point saved on an external storage device to restore the device to that point.

1. Connect the external storage device to your device.

2. On the taskbar, select **Start > All apps > Samsung > Samsung Recovery**.

3. Select **Backup Management**, select a backup image, and then select **Recover**.

4. Select **Recover**.
